STAT

Dear [Redacted]

I have received your May 4, 1988 letter, which requests an examination of the sequencing of the traffic lights, in particular with regards to the two left turn lanes into C.I.A. compound.

I have forwarded your request to our Traffic Engineer and have requested that he conduct an investigation into this matter. I will advise you of his findings when they become available.

Sincerely,

A handwritten signature in cursive script, appearing to read "D. Silies".
Donald E. Silies, II
Project Engineer
